

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, JUNE 11, 1864

THE TEACHERS' INSTITUTE.—On Tuesday last the Teachers of Placer County assembled at the Methodist Church in this place and organized by electing A. H. Goodrich, Superintendent of Common Schools of this County, President, and J. C. Ball, Secretary. This convening of the teachers of the public schools, appears to be fraught with great good, not only to themselves, but the whole community. In this manner each individual receives those practical lessons in the profession in which he is engaged as will enable him the better to discharge the duties which are required of him; and through him the rising generation are the immediate recipients of the practical lessons which have been imparted to each. The deliberations of the Institute were characterized by harmony and good feeling throughout. We give a portion of our space for the proceedings of the Institute, to which we refer our readers.

The lecture delivered by the State Superintendent of Public Instruction, Hon. John Swett, on Wednesday evening was listened to by quite a number of our citizens, and for practical good sense we can safely say was calculated to do great good. The speaker showed himself thoroughly acquainted with his subject, and treated it in that plain, earnest, candid manner that doubtless interested many who have heretofore been lukewarm in the great cause of Education. His remarks as to the duties of teachers in and out of the school room appeared particularly applicable and practical. The lecture of Dr. Schellous we are sorry to say we were not able to listen to, but are informed by those who did attend that he acquitted himself well. The reading of the poem by Mr. C. B. Plummer was a success and was attentively listened to and appreciated. The Institute adjourned yesterday after a session of four days, during which time there were continued accessions to their number. We are proud to say of those who have charge of the educational department in this county are men and women who appear highly competent to discharge the important duty devolving upon them.

CHANGING THEIR BASE AGAIN.—We have heard of many persons who were formerly identified with the Democratic party express themselves as ardent admirers of Fremont for the Presidency. We confess our inability "to see" one single thing in common with their former principles and the doctrine held by Fremont and his friends. Fremont, it is known, is decidedly opposed to Mr. Lincoln, but we cannot conceive this to be a valid reason why persons who have heretofore opposed both should confess to a new-born admiration for the bogus "Pathfinder." Mr. Lincoln has probably done the best he was able, be that all that was expected of him or not; it at least evinces a disposition on his part to exert himself—as much cannot be said of Fremont in any position he has ever occupied, unless we grant that he is and always has been an idiot, or worse. No man, we think, supposing only Lincoln and Fremont to be in the field—who has a particle of pride as an American citizen, could hesitate for a moment where to cast his suffrage. If Fremont is to be thrust unceremoniously upon the American people, and the leaders of the Democratic party endorse him, we speak for ourselves alone, we prefer to "bear the ills we have than fly to others that we know not of" and shall so act on the day of election.

COMPLIMENTARY, VERY.—The following resolution we received the first part of the present week, and is more complimentary than our services to that body would justly merit. We are overwhelmed with gratitude to the members of the Union Guard for this expression of their kindly feeling towards us, and should we ever be called to the tented field to defend the right, we know of no corps in which we would prefer to be enrolled in than with the brave and generous men who compose the Little York Union Guard; for whose kind feeling and generous impulses predominate, brave hearts and strong arms are to be found. Of such men are heroes made. Gentlemen, we thank you.

You Bet, June 7th 1864.
E. B. BOUST, DUTCH FLAT, DEAR SIR—At the regular monthly meeting of the Little York Union Guard held at this place June 4th, 1864, your kind and generous letter was read to the Company, and it was unanimously resolved that a vote of thanks be tendered to the Editor of the Dutch Flat Enquirer, richly due for his kindness and generosity, and as a testimonial of our appreciation of his gentlemanly treatment and kindly feeling towards us. And allow me to add, you will ever be remembered by the Little York Union Guard.
Respectfully,
G. H. ATKINS,
Capt. Commanding.

LAST week we received a set of resolutions from the Iowa Hill Brass Band tendering acknowledgements of the band to the Pacific Guards and the Little York Union Guards, which we somehow misplaced and have been unable since to find them. The members of the companies mentioned will please give the band credit for their warm feelings and generous expressions.

GOOD TIME.—George Brainard, one of the gentlemen who handles the ribbons for the California Stage Company came in the other day at fifteen minutes past one o'clock. Making the time from New Castle in five and a quarter hours. He will soon make it in four, and it is confidently expected that passengers will be landed at Virginia City from Sacramento City by 10 o'clock. Wonder who has got the best road now.

NOTICE Pacific Railroad advertisement.

ELECTION.—The annual election for town officers will take place on Friday, the 17th inst., by order of the Board of Trustees. Our people neglected the interests of the Corporation during the session of the Legislature in not petitioning to amend the act of Incorporation so as to make the town a separate road district, by which we should have been able to levy a road tax the money from which would be expended exclusively upon the streets. Too late now.—We hope our people will turn out generally at the election to take place next Friday, and show by their actions that they feel some interest in the welfare of the government and interests of the town. The anticipations of the people are soon to be realized as to the growth of business increase of the place; and if those who have labored so long and earnestly for the prosperity of the town hold out but a little while the promises made will be more than fulfilled. In less than ten days we will have several daily stages running through town from the railroad depot to the capital of the neighboring territory, in a short time our business men, (those who are left) will commence to receive a profit from the immense travel that is bound to flow through the place, and it behooves all in view of these facts to see to it that we are properly protected by good laws, and that each one be compelled to perform his part for the good of the whole.

THE Pacific Turnpike is now open for travel, the road being completed with the exception of cleaning up. Mr. Culbertson tells us that teams can now go through without the slightest difficulty. By the by, our Nevada friends confound this road with the Dutch Flat and Donner Lake road. This road goes into the Henness Pass road near Bowman's ranch, while the Donner Lake road comes out at or near Ingraham's ranch, a distance of about fifty miles above Bowman's. The owners of the Pacific Turnpike do not want this confounding, but are willing that their road should stand upon its merits, and we are certain the Donner Lake Company will object seriously to this confounding.

FAIRS, raffles, festivals, are of almost every day occurrence with the Catholic Church but always to raise money for their own charitable institution. On such occasions, Protestants are among the most liberal contributors. Does any one know of an instance in which the Church has identified itself with a movement in aid of the Sanitary Fund?

The above dirty fling at a particular religious denomination is characteristic of the source from whence it emanated. It would set all sects and creeds at antagonism for the sake of making a few paltry dollars; and thinks, in its blind aviciousness, to ingratiate itself in the good graces of each by turns by its uncalculated, unjust, and malicious abuse of the other. Its service to the government is only lip deep, and its zeal for the good of the country regulated by the pecuniary advantages likely to accrue to it on account of its professions. Principle is not known in its vocabulary.

If your town paper don't suit you, and you desire to discontinue it, don't act like a gentleman, or a christian, (especially, if you get it for nothing), and tell the carrier that you do not want it, nor send word to the proprietor that effect, but when the paper is left at your house, act like a savage and get your innocent little child to go and throw it over the fence, thereby doing an act that you would have done to you. Pursue this plan and you will be certain to gain the contempt of all who become acquainted with your manners, and convince the community, probably, that you did not have the courage to act like a man.

TWO MEN WOUNDED AT VIRGINIA.—During a row at a burly-gurdy house on C street, Virginia, last night, a pistol was discharged in the crowd and two men wounded. There are conflicting stories about the matter, some asserting that the pistol was fired by a policeman named Soule, while he was firing at a policeman named Brinton, who was present, were arrested by Constable Birdsell, and will be examined before Justice Atwill. The ball from the pistol (which must have been held low down, and fired pretty much at random among the legs of those in the crowd), grazed the flesh of one man's leg, above the knee, then passed into the leg of a second Mexican at the knee, shattering the bone, and inflicting an ugly and dangerous wound. Two of the chambers of Soule's revolver were found to be empty when he was arrested, but there was no small about the pistol to show that it had lately been discharged. He accounts for the absence of the two chambers by saying that they were fired out a night or two since at a man whom he attempted to set fire to a house where there were other policemen with him when he fired at this would-be incendiary.—G. H. News.

LETTER FROM SAN FRANCISCO.

SAN FRANCISCO, June 8th, 1864.

ENQUIRER.—The gullibility of the great public is truly amazing, and may well excite our astonishment. It seems as if we should discard the maxim of the poet:—"And long experience made him sage"—as a nullity, no longer of any force or propriety in its application to ourselves. The most pernicious doctrines and sentiments are daily promulgated de nomine, which the sober and discreet should instantly recognize as but a counterfeit presentation of the Simon Pure, were they not blinded by this fatal perversion of human nature: this unreasoning acceptance of the nostrum of the charlatan because they are nicely gotten up, and adorned with some potent name. These reflections have been suggested by the discovery that our loyal citizens, have recently, been sold low; indeed, bilked most outrageously.

At the Metropolitan Theatre the other night, when the "Sanitary Flour Sack" had been sufficiently sold, a dilapidated little boy was produced as the famous drummer, who beat "Yankee Doodle bow, wow, wow," in the very face and teeth, of the infernally hellish traitors on the sanguinary battlefield of Antietam. Of course patriotic gratitude was warmly excited, and the gay and gallant little soldier boy, like "Dance in a brazen tower," was greeted with a shower of gold and greenbacks, quite enough to set him up in business, we should judge. It now turns out that this ingenious young creature, of an heroic role, although born within the precincts of this loyal City, has never been beyond its suburbs, and worse still is a copperhead little rascal, who sings "I would I were in Dixie" with snap and gusto, and whether he has probably gone, as upon enquiry he is reported non est, and we know he had the money to pay his way. The "Call" appears to be severely nettled about it, but it is well for us to remember, "Boys will be boys" you know, as all old folks say.

THE ILL-STARRED COMANCHE.

Yesterday we had the announcement that the Aquila had been safely beached, high and dry; and as we feel a deep interest in everything relating to "our Monitor," we strolled down to South Beach "to see what we could see." Arrived there we found that the boilers and flues of this invincible Iron-clad were still "stuck in the mud," and that so far as any sign of getting the vessel ready for sea; or for that matter even the laying of her keel was concerned the entire material might as well be doing beneath the tide. In short, the somnolent state of affairs cannot but be gratifying to the copperheads. And we respectfully submit to the Civil and Military authorities that by such lethargic and unpardonable delay in getting "our Monitor" ready to protect the port, they are guilty of giving aid and comfort to traitors. We are not alarmed, but the mysterious manner in which "our Iron-clad" has been kept either beneath her element, or out of it entirely, excites grave apprehensions. We think General Wright, should fly round, and do something; and the "Flag says" "that's so," give them particular hell, ois doxis gloriolix—infernal traitors!

During our long residence on this coast we have never known a week so barren of sensational incidents as the last. There has not been a single occurrence worthy of note save the arrival of Paul Julien the Violinist, who is shortly to give us a touch of his quality as a musical artist. We had the gratification of hearing him about ten years ago, and although we have knocked about the world a great deal since then, sometimes enjoying and sometimes suffering much, we have a vivid recollection of the pieces he played. Such music as he makes we believe to be imperishable. It lingers in the brain almost as sweetly and saintedly as the blessed memory of a mother's love. If he plays now as he did then we would not forego the pleasure of hearing him for a nice little pile, such as we never hope to have.

By the John L. Stephens from Maudslan and other Mexican Ports we have an unusually large shipment of treasure, which would seem to indicate that the French blockade of the northern Ports, and their change of dynasty, does not materially affect the mining interests in that distracted country. Now that the "seige of Richmond has begun" we look for a speedy resuscitation of the Monroe Doctrine which our Ulysses will take with him to the Halls of the Montezumas taking a short cut over the conquered Confederacy. We are making great preparations for the glorious fourth. It appears to be a general impression that Grant will avoid taking the capitol of rebellion until that day as he did at Vicksburg thus, truly consecrating the glorious anniversary of American Independence.

Pursuant to the call of the County Superintendent of common schools, the Placer County Teachers' Institute met at the school house in Dutch Flat, June 7th 1864, and was called to order by Hon. A. H. Goodrich, County Superintendent, at a quarter to 10 o'clock, a. m., in a few well chosen remarks. Teachers answering to their names, were D. W. Hammond, Dutch Flat; Geo. W. Lermund, Rattlesnake; M. M. Scott, Stewart Flat; J. B. Drummond, Todd's Valley; J. O. Ball, Dry Creek; Miss Augusta A. Nickerson, Rock Creek; Miss Angie Wheeler, Gold Hill; Miss Amelia Nash, Coon Creek; Mrs. G. A. Smith, Yankee Jim's; Mrs. Alice Galloway, Illinois town; Mrs. W. S. Cook, Dutch Flat; Miss Mattie D. Clark, Smithville; Miss Lydia Hinkley, Stewart Flat.

On the President announcing the time for the election of officers of the Institute for the ensuing year, the following persons were duly elected: President, A. H. Goodrich; Vice President, Dr. E. J. EXTRAORDINARY SAGACITY.

Of all things in which one could look for sagacity, a snake is the last, yet my story is of a snake, and a wise one, too. Men have studied them unkindly since the creation, when the Giver of life pronounced them the most subtle of all the beasts of the field; and the consequence is that their wisdom and importance have been overlooked and derided. Dull and stupid as they apparently are, yet they far exceed in intelligence and something like reason, in emergencies, many animals supposed to be akin to man in the nobler attributes of physical life, as I shall prove.

I got interested in the study of serpents down in Arkansas, where I spent the most of last year. I don't know why, but I was constantly testing their sagacity by placing them in new situations. Of all kinds, I experimented most with rattlesnakes and copperheads.

One afternoon I seated myself on a little knoll in the woods to smoke and read, (for I always had a book or newspaper with me,) and had been enjoying myself for some time, when I espied a copperhead making for his hole within ten feet of where I sat. Of course I threw down my book and cigar, and proceeded to try a new experiment. As soon as I stirred the rascal made a grand rush for the hole; but I caught his tail as he got nearly in, and jerked him full twenty feet backward. He threw himself in a coil in less than no time, and waited for me to pitch in. But I concluded to let him try the hole again. After a while he started for it, occasionally stopping, when I stirred, to coil up; but as I kept pretty quiet he recovered confidence and went in. Again I jerked him out. No sooner had he touched on the ground than he made another grand rush for the hole, in a straight line with my legs. But it didn't work, for I got out of the way and gave him another flirt.

This time he lay still awhile, apparently to reflect on the course to be pursued. After a time he tried it again, though rather slowly. After getting his head a little way in he stopped and wiggled his tail, as if on purpose to get me to grab it. I did so, and quicker than a flash he drew his head out, coming within a quarter of an inch of striking me in the face. However, I jerked him quite a distance, and resolved to look out next time. Well, he tried the same game again, but it wouldn't work—I was too quick for him.

This time he laid in a coil, perhaps five minutes without stirring. At last however, he tried it once more. He advanced to within five feet of the hole very slowly, coiled again, and then, by Heavens! he got the start of me by one of the cutest tricks you ever heard of.

"How was it?" we all exclaimed in a breath. "Why," said the narrator, sinking his voice to the acme of solemnity, and looking as honest and sober as a man could look, "why, he just turned his head toward my hand, and went down that hole tail first. I saw the rascal's eyes wrinkle, as much as to say: 'What do you think of that, eh?' and since then I have believed that snakes have souls."

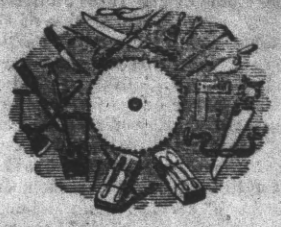

The above is pretty good for Arkansas, but we think the following, for regular hard, systematic lying beats any snake or fish story we ever heard. The scene is laid in New Hampshire, and the story is as tough as the granite of that State is hard:

There lives in New Hampshire a man called Joe; a fellow noted for the tough lies he can tell. Joe called in at Holton's lately, and found him almost choked with smoke, when he suggested, "You don't know as much about smoky chimneys as I do, Squire, or you'd cure 'em." "Ah!" said Holton, with interest, "did you ever see a smoky chimney cured?" "Seen it?" said old Joe; "I think I have. I had the worst one in Seaboard County once, and I cured it a little too much." "How was that?" asked Holton. "Why, you see," said Joe, "I built a little house out yonder, at Wolf Hollow, ten or twelve years ago. Jim Bush, the fellow that built the chimneys, kept blind drunk three quarters of the time, and crazy drunk the other. I told him I thought he'd have something wrong; but he stuck to it, and finished the house. Well, we moved in and built a fire the next morning to boil the tea kettle. All the smoke came through the room and went out at the windows; not a bit went out up the flues. We tried it for two or three days, and it got worse and worse. By-and-by it came on to rain, and the rain began to come down the chimney. It put out the fire in a minute, and directly it came down by the painful. We had to get the baby off the ground as soon as we could, or it would have been drowned. In fifteen minutes the water stood knee deep on the floor. I pretty soon saw what was the matter. The drunken crew had put the chimney wrong end up, and it drew downward. It gathered all the rain within a hundred yards, and poured it down by bucketsful." "Well, that was unfortunate," remarked Holton; "but what in the world did you do with the house? Surely you never cured that chimney?" "Didn't I, though?" answered old Joe; "yes, I did." "How?" asked Holton. "Turned it the other end up," said the incorrigible, "and then you ought to have seen it draw. That was the way I cured it too much." "Drew too much?" asked Holton. "Well, Squire, you may judge for yourself," said old Joe. "Pretty soon after we got the chimney down the other end up, I missed one of the chairs out of the room, and directly I see'd another of 'em shooting toward the fire-place. Next the table went, and I see the back leg going up. Then I grabbed the old woman under one arm and the baby under t'other, and started; but just as I got to the door I see the cat going across the floor backward holding on to the carpet, yelling awfully. It wasn't no use. I just see her going over the top of the chimney, and that was the last of her." "Well, what did you do then?" asked Holton; "of course you could not live in such a house?" "Couldn't I, though?" said Joe; "but I did. I put a poultrie on the jamb of the fire-place, and that drew t'other way, so we had no more trouble."

WE beg to assure the public that the well-known reputation of these Machines for RELIABILITY will be fully sustained, and in our rapidly increasing business the same care will be faithfully exercised in every department of our manufacture. Every Machine sold by us IS WARRANTED IN EVERY RESPECT.

The public attention is respectfully requested to the following

Card from the Grover & Baker S. M. Company.

The public, in their eagerness to supply themselves with Sewing Machines making the Grover & Baker stitch must not forget to purchase them of the parties who alone are authorized to sell them. All machines sewing from the spools and in which one needle only penetrates the cloth, and having a feed which allows the material to be turned at will are infringements.

GROVER & BAKER, S. M. CO.

A Card from Elias Howe, Jr.

All persons are cautioned not to make, deal in, or use, any Sewing Machines which sew front two spools and make the stitch known as the Grover & Baker stitch, unless the same are purchased from the GROVER & BAKER SEWING COMPANY, or their Agents, or Licensees, and stamped under my patent of September 10, 11.

Said Company and their Licensees, alone, are legally authorized under their own patents, and my said patent, during the extended term thereof, to make and sell this kind of Sewing Machines, and all others are pirates upon my said patent, and will be dealt with accordingly wherever found.

ELIAS HOWE, JR.

AMERICAN EXCHANGE,
SANSOM STREET,
Opposite the American Theater,
San Francisco.

S. H. SEYMOUR, Proprietor.

THIS UNDERIGNED, LONG CONNECTED
with the establishment as Book-keeper, begs leave respectfully to inform the old patrons of the house, and the public generally, that he has leased from Mr. Bailey Sargent,

THIS MAGNIFICENT ESTABLISHMENT,
which will in future be entirely under his management and control, and where he will be pleased to see his old friends and the traveling public. He flatters himself that his experience in the business, and his long acquaintance with the people of California, will be a guarantee that no one will leave his house dissatisfied, and he pledges himself to spare no pains or expense, providing every means for the comfort and satisfaction of his guests.

THE AMERICAN EXCHANGE is well known to the people of California, that it seems almost unnecessary to say anything in praise, either of the building or its location. The Proprietor will only remark that it is inferior to no house in the State in all the requirements of a FIRST CLASS HOTEL, being in a central location and easy of access from all parts of the city. The ROOMS are large and WELL VENTILATED, and furnished with Spring Mattresses. Water has been introduced into all part of the house.

BATH ROOMS on the premises for the convenience of families.

Two Caddies are attached to the Hotel to convey passengers to and from the steamers.
